SOFTWARE ENGINEER

I am a software developer with hands-on experience developing efficient, user-friendly and streamlined applications. I am passionate about continuously learning new things effectively and working on modern frameworks.

TECHNICAL SKILLS

Languages : C, C++, Python, JavaScript, Java, SQL, C#
Frameworks : Flask, Django, React.js, Next.js, Vue.js, Node.js, .NET
Libraries : Chart.js, ML Libraries (Python)
Databases : Teradata, SingleStore, SQL
Dev Tools : Git, Linux Shell Scripting, Visual Studio Code

EDUCATION

M. Sc. (Digital Engineering) <i>Otto von Guericke University Magdeburg</i>	2025 – Currently Magdeburg, Germany
Presently pursuing Master's Degree in Digital Engineering at OVGU Magdeburg	
B. TECH. (CSE) <i>Parul Institute of Engineering and Technology</i>	2021 – 2024 CGPA: 7.62
Completed Bachelor's Degree in Computer Science and Engineering	
Diploma (CE) <i>Parul Polytechnic Institute</i>	2018 – 2021 CGPA: 9.75
Completed Diploma in Computer Engineering	

EXPERIENCE

Big Data SQL Developer (Internship) <i>Everlytics Data Science Pte Ltd.</i>	Mar 2024 – July 2024
- Worked with Teradata Data Warehouse to perform data engineering tasks including data inspection, attribute correction, record validation, and ETL pipeline maintenance to ensure high data quality - Developed Python scripts and Linux shell scripts to automate data inspection, processing, and transfer workflows - Transferred data from Teradata to SingleStore and performed validation checks to ensure data consistency between source and target databases - Monitored data transfer operations and database node health, assisting with node restart and recovery procedures in case of failures	
IOT Developer (Internship) <i>Agrem Technosol</i>	May 2023 – July 2023
- Collaborated in development and signal processing for a Pressure and Depth Sensor Prototype for an Underwater Craft - Gained knowledge about sensor programming and integration (C Programming) as well as interfacing technology and Socket Programming in C# - Successfully delivered high-quality work within project timelines	
Software Developer (Internship) <i>Amor Innovations Pvt. Ltd.</i>	June 2020 – August 2020
- Developed web pages using Vue.js for the App 'LoveMySkool'. Provided URLs for the developed pages in the Django view - Gained practical experience in developing front-end applications and integrating them with Django back-end - Collaborated with a team to ensure project requirements were met and successfully delivered high-quality work within project timelines - Developed skills in problem-solving, communication, and teamwork	

PROJECTS

Three-Player Chess

Python, Flask, React.js, REST API

2026

- Developed a full-stack **three-player chess application** with a **Flask backend** and **React frontend**, connected through REST APIs for game state management.
- Implemented a custom **96-position board engine** supporting legal move validation, check, checkmate, castling, pawn promotion, and player elimination.
- Built an interactive **SVG chessboard** with move highlighting, turn management, captured pieces, game-over handling, and custom Commander piece mechanics.

Campus Events & Navigation - Bachelor's Final Year Project

React.js, OpenStreetMap, Tailwind CSS

2024

- Developed a campus-focused **events and navigation web application** using **React.js**, integrating **OpenStreetMap** for interactive campus navigation and location-based features.
- Designed a responsive and user-friendly interface using **Tailwind CSS** to help students discover campus events and navigate university locations.

AI Storyteller

Next.js, Gemini Pro

2023

- Developed an **AI-powered storytelling application** using **Next.js** and **Google Gemini Pro**, integrating generative AI to create interactive stories from user input.
- Built the application around an emerging **Generative AI/LLM API**, gaining hands-on experience with AI-powered application development.

CERTIFICATIONS

- Cisco - Cybersecurity Essentials
- Coursera – Python Programming, Python Project, SQL for Data Science, Data Analysis, Machine Learning in Python
- DeepLearning.io - Machine Learning Specialization, Unsupervised Learning, Recommenders, Reinforcement Learning
- Udemy - Machine Learning A-Z, Artificial Intelligence A-Z
